

Vapor Tight Series

WareLight LED Vapor Tight Fixtures are built for durability and energy efficiency in demanding environments. Featuring stainless steel latches for enhanced corrosion resistance and secure closure, these fixtures are ideal for locations where moisture, dust, or harsh conditions are present. Suitable for both indoor and outdoor use, they deliver superior light distribution and consistent performance in challenging applications such as car washes, food processing facilities, gas stations, laboratories, industrial sites, refrigeration units, parking garages, and warehouses. Available in 4FT and 8FT sizes to meet your project needs.
