# Direct/Indirect Grille Fixture Series

Enhance commercial interiors with this 4-foot LED Direct/Indirect Grille Fixture featuring a sleek metal shade and an architectural design that quietly articulates graceful classic lines while delivering wide lateral light distribution. Its perforated housing, set back ends, and refined profile create a clean, modern appearance ideal for offices, schools, retail spaces, corridors, and other professional environments. Balanced uplight and downlight help reduce glare while providing efficient, comfortable illumination. Complete with adjustable 10-foot hanging cables, power feed cable, canopy, and backed by a 5-year warranty, this fixture combines timeless style, flexibility, and dependable performance.
