Direct/Indirect Grille Fixture Series

WareLight's 4-foot architectural linear LED suspension fixtures provide both direct and indirect light, creating bright, balanced illumination for commercial or residential interiors. Designed with a sleek steel perforated diffuser, they deliver a modern look while reducing glare and improving light distribution. Highly effective and energy efficient, this 80-watt fixture is ideal for hotels, offices, retail outlets, restaurants, conference rooms, and more. With selectable color temperatures, 0-10V dimming, and adjustable suspension hardware included, it offers versatile performance with clean, contemporary style.
