Gooseneck Series

Illuminate signage, storefronts, and architectural features with the WareLight Gooseneck LED Light Module, a versatile and durable lighting solution designed to perform in all conditions. With selectable wattage options and color temperature, this fixture provides efficient, customizable lighting tailored to your needs. The integrated dusk-to-dawn photocell ensures energy-saving automation by activating the light only when needed. Choose from a classic warehouse shade or a more focused dome shade to match your aesthetic. The fixture is also available with four distinct gooseneck arm options, offering flexibility in mounting style and reach—perfect for both modern and traditional installations.
